Ensure that the above product is manufactured from ONLY the approved site. Ensure that your manufacturing site(s) is GMP compliant and that each product must meet quality specifications as per Pharmacy and Poisons Board GMP requirements. No changes should be made to the product without prior approval of Pharmacy and Poisons Board. You are advised to apply for retention of your products three (3) months prior to expiry of retention period as indicated above. Ensure that ALL products that are in the Kenyan market where you hold marketing authorization MUST be retained regardless of whether a product will be imported into Kenya this year.

NOTE: This certificate can only be verified online at http://products.pharmacyboardkenya.org/ppb_admin using the QR Code below.
